ORIGINAL CHARTER.

AN ACT TO PROVIDE FOR THE LOCATION AND MAINTENANCE OF A PARK FOR THE TOWNS OF SOUTH CHICAGO, HYDE PARK AND LAKE. [APPROVED FEBRUARY 24, 1869.]

Section 1. **Appointment—Oath—Bond.** Be it enacted by the People of the State of Illinois, represented in the General Assembly: That five persons, who shall be appointed by the Governor of the State of Illinois, together with their successors, be, and they are hereby, constituted a Board of Public Park Commissioners for the towns of South Chicago, Hyde Park and Lake, to be known under the name of the South Park Commissioners; and in case of the failure of any of said persons to accept such appointment, and to qualify thereunder as hereinafter provided, within sixty days after the passage of this act, the place of such person in said commission shall be thereby vacated, and it shall be the duty of a majority of the Commissioners so accepting to appoint some suitable person to fill the place thus made vacant, which appointment, when accepted by such nominee, shall constitute such person as a Commissioner under this act. And a majority of said Commissioners shall so continue to nomi-

nate until the board shall consist of five persons. Each of said Commissioners, before entering upon the duties of his office, shall take an oath to well and properly discharge the duties of his office for the interest of the public, which oath shall be reduced to writings subscribed to by him, and filed in the office of the County Clerk of Cook County. They shall each give a bond in the penal sum of fifty thousand dollars, with one or more sureties, to be approved by the Judge of the Circuit Court of Cook County to the Treasurer of Cook County, conditioned for the faithful discharge of their duties under this act.

Sec. 2. **Term—Officers—Seal—Vacancies.** As soon as convenient, after the said board shall be constituted as aforesaid, the members thereof shall decide by lot, at a meeting to be called by any three of them, as to the respective terms for which each member shall hold his office; the number of lots shall equal the number of Commissioners, and the person drawing the longest term shall serve for five years from the first day of March, A. D. 1869; the one drawing the next shall serve for four years from said date; the one drawing the next shall serve for three years from said date; and so on until the term of each one of said Commissioners shall be definitely determined, each one serving for the length of time inscribed on the lot drawn by him—the last of said Commissioners serving for the term of one year only from said first day of March, A. D. 1869. As soon as the term of office of each of said Commissioners shall be determined as aforesaid, said board shall organize by electing one of their number as President, and one of their number as Auditor; they shall also

appoint a Treasurer, prescribe his duties and fix his compensation, who shall give bond for the faithful discharge of his duties in the penal sum of five hundred thousand dollars, with not less than three sufficient sureties, to be approved by the Judge of the Circuit Court of Cook County. They shall also choose a Secretary, who shall not necessarily be a Commissioner, and who shall hold his office until his successor shall be appointed, as hereinafter provided; and all officers appointed by the board shall be subject to removal at the pleasure of the board. The said board shall adopt a seal and alter the same at pleasure; they shall keep a complete record of all their proceedings, which shall be open at all times for the inspection of the public. The said Commissioners shall receive no compensation for their services, except the President, who may, in the discretion of said board, have and receive such compensation as may be fixed as hereinafter provided, not to exceed three thousand dollars per annum. All vacancies occurring in said board shall be filled by the appointment of the Judge of the Circuit Court of Cook County, when such vacancy or vacancies shall occur. Said Board of Commissioners shall be a body politic and corporate, and shall have and enjoy all the powers necessary for the purposes of this act.

Sec. 3. Election. The President, Auditor, Treasurer and Secretary shall be elected annually by said board, at the annual meeting thereof, and shall receive such salary for their services as said board shall from time to time determine, not exceeding, for each of said officers, the sum of three thousand dollars per annum.

Sec. 4. Lands to be taken. The said Commision-

ers, by this act, are authorized and empowered to, and they shall, within ninety days after their organization as aforesaid, or as soon thereafter as practicable, select the following described lands, situated in the towns of South Chicago, Hyde Park, and Lake, in Cook County, Illinois, to-wit: Commencing at the southwest corner of Fifty-first street and Cottage Grove avenue, running thence south along the west side of Cottage Grove avenue to the south line of Fifty-ninth street; thence east along the south line of Fifty-ninth street to the east line of Hyde Park avenue; thence north on Hyde Park avenue to Fifty-sixth street; thence east along the south line of Fifty-sixth street to Lake Michigan; thence southerly along the shore of the lake to a point due east of the center of section twenty-four (24), township thirty-eight (38) north, range fourteen (14); thence west through the center of said section twenty-four (24) to Hyde Park avenue; thence north on the east line of Hyde Park avenue to the north line of Sixtieth street, so called; thence west on the north line of Sixtieth street, so called, to Kankakee avenue; thence north on the east line of Kankakee avenue to Fifty-first street; thence east to a point to the place of beginning; also, a piece of land commencing at the southeast corner of Kankakee avenue and Fifty-fifth street, running thence west, a strip two hundred feet wide, adjoining the north line of Fifty-fifth street, along said Fifty-fifth street to the line between ranges thirteen (13) and fourteen (14) east; thence north, east of and adjoining said line, a strip two hundred feet wide, to the Illinois and Michigan canal; also, a parcel of land beginning at the southwest corner of Douglas place and Kankakee avenue, running

thence south, a strip of land one hundred and thirty-two feet wide along the west side of said Kankakee avenue to a point one hundred and fifty feet south of the south line of Fifty-first street; also, a strip of land commencing at the intersection of Cottage Grove avenue and Fifty-first street, running thence east one hundred feet in width on each side of the center line of Fifty-first street, to a point one hundred feet east of the center line of Drexel avenue; also, a strip of land extending north from the intersection of Fifty-first street with Drexel avenue, one hundred feet in width on each side of the center line of said avenue to the north line of Forty-third street; thence northerly, a strip of land two hundred feet in width till it meets or intersects with Elm street in Cleaverville; thence northerly along said Elm street, two hundred feet in width, west from the east line of said street, to its intersection with Oakwood avenue; which said land and premises, when acquired by said Commissioners, as provided by this act, shall be held, managed and controlled by them and their successors, as a public park, for the recreation, health and benefit of the public, and free to all persons forever, subject to such necessary rules and regulations as shall, from time to time, be adopted by said Commissioners and their successors, for the well ordering and government of the same.

Sec. 5. Condemnation. In case the said Commissioners cannot agree with the owner or owners, lessees or occupants of any of the said real estate selected by them as aforesaid, they may proceed to procure the condemnation of the same in the manner prescribed in the act of the General Assembly of the State of Illinois,

entitled "An Act to amend the law condemning right of way for the purpose of internal improvements," approved June 22, 1852, and the acts amendatory thereof, the provisions of which said act, and the several acts amendatory thereof, are hereby extended to the park and Park Commissioners to be created by virtue of this act.

Sec. 6. **Map.** When the title to the land selected for such park as herein provided shall have been acquired by said Commissioners, by gift, condemnation, or otherwise, it shall be the duty of such Commissioners to make, acknowledge, and file for record in the office of the Recorder of Deeds for Cook County a map, showing the said land, with a correct description, including section, township and range.

Sec. 7. **Assessors—Assessment, etc.** As soon as the amount required for the condemnation of the grounds selected for said park, shall have been ascertained by said Commissioners, with reasonable certainty, they shall apply to the Judge of the Circuit Court of Cook County for the appointment of three freeholders of the County of Cook as park assessors. The Commissioners shall give notice in one or more of the daily newspapers published in the City of Chicago, of the time when such application will be made, and all parties interested may appear and be heard by the said judge, touching such appointment. At the time fixed for such application, the court, after hearing such persons as shall desire to be heard touching such appointment, shall nominate and appoint three assessors for the purposes provided in this act. The said assessors shall proceed to assess the amount so ascertained upon

property in the towns of South Chicago, Hyde Park and Lake, in Cook County, deemed benefited by reason of the improvement occasioned by the location of said park, as near as may be in proportion to the benefits resulting thereto: Provided, that the aggregate of said benefits is equal to or greater than the amount of said damages; and in case the aggregate of the benefits is less than the damages, then the balance of the damages over the benefits shall be paid from the fund provided for in section eight of this act. Upon entering on the duties of their office, the said assessors shall make oath before the Clerk of the said Circuit Court faithfully and impartially to discharge the duties of their office. They shall give at least ten days' notice in one of the said daily papers of the time and place of their meeting for the purposes of making said assessment, and may adjourn such meeting from time to time until the same shall be completed. In making the said assessment the said assessors shall estimate the value of the several lots, blocks, or parcels of land deemed benefited by them as aforesaid, and shall include the same, together with the amount assessed as benefits, in the assessment roll. All parties interested may appear before said assessors, and may be heard touching any matter connected with the assessment. When the same shall be completed, it shall be signed by the assessors, and returned to the said Circuit Court, and shall be filed by the clerk thereof. The assessors shall thereupon give at least ten days' notice in one of the said daily papers, of the filing of said assessment roll, and they will, on a day therein named, apply to the said Circuit Court for confirmation of the same, which said notice shall be published at least ten

days before the time fixed for such application. Said Circuit Court shall have power to revise, correct, amend, or confirm said assessment, in whole or in part, and may make or order a new assessment, in whole or in part, and the same revise and confirm upon like notice. All parties interested may appear before said Circuit Court, either in person or by attorney, when such application shall be made, and may object to said assessment, either in whole or in part, provided all objections shall be in writing, and shall be filed at least three days before the time fixed for the application, and shall specify the lot, block, or parcels of land on behalf of which objection is made. After the confirmation of said assessment, the clerk of said Circuit Court shall file a copy thereof, under the seal of his said court, with the clerk of the County Court of Cook County, and said assessment shall be a lien upon the several lots, blocks, or parcels of land assessed for the benefits as aforesaid. Ten per cent. of the amount so ascertained shall be due and payable annually, and the Clerk of said Cook County Court shall include in the general tax warrants for each year, until the whole sum shall be paid, for the collection of State and county taxes in the said towns of South Chicago, Hyde Park and Lake, ten per cent. of the said assessments in an appropriate column, to be termed "South Park Assessment," with the amount to be collected opposite the several lots, blocks, or parcels of land assessed as aforesaid; and like proceedings in all respects shall be had for enforcing the collection of same as is now provided by law for the collection of State and county taxes. The money collected under the provisions of this section shall be paid to the

treasurer of Cook County, for which he and his sureties shall be responsible, as fully as for any other moneys by him received as treasurer of Cook County, and be held by him in the same manner and be subject to the same control and direction, as provided in this act for other moneys belonging to said corporation; and the treasurer of Cook County shall be entitled to receive one-half of one per cent. and no more, of said moneys as a full compensation for receiving and disbursing the same.

Sec. 8. **Bonds for deficiency.** For any deficiency arising through acquiring a title to said park, and for the payment of expenses of enclosing, maintaining and improving the park herein provided for, and the expenses, disbursements and charges in the premises, the said Commissioners shall have power to loan or borrow from time to time, for such time as they shall deem expedient, a sum of money not exceeding two millions of dollars, and shall have authority to issue bonds, secured upon the said park and improvements, which bonds shall issue under the seal of said Commissioners, and shall be signed by said Commissioners, and countersigned by the secretary of said board, and bear interest not exceeding seven per cent. per annum; and it shall be the duty of said Commissioners to keep an accurate register of all bonds issued by them, showing the number, date and amount of each bond, and to whom the same was issued and said register shall at all times be open to the investigation of the public; and for the payment of the principal and interest of said bonds the said park and improvements shall be irrevocably pledged, and the towns of South Chicago, Hyde Park and Lake shall be irrevocably bound; and

said bonds may be sold by said Commissioners, upon such terms and for such prices as, in the judgment of said Commissioners, can be obtained for the same in cash.

Sec. 9. **Estimate for yearly tax.** The said Board of Park Commissioners shall annually, on or before the first day of December in each year, transmit to the Clerk of the County Court of Cook County, an estimate, in writing, of the amount of money, not exceeding in any one year three hundred thousand dollars, necessary for the payment of the interest on the bonds issued by said board, and that in addition thereto will be required for the improvement, maintenance, and government of said park during the current year; and the said clerk shall proceed to determine what per cent. said sum is on the taxable property of said towns, according to the several assessors' returns for the respective year, and shall, in the next general tax warrants for the collection of State and county taxes in said several towns, set down the amount chargeable to the several persons, corporations, lots, or parcels of ground, in a separate or appropriate column, and shall receive such compensation as now allowed by law; and the collectors respectively shall proceed to collect the same in the manner now provided by law for the collection of State and county taxes; and all the provisions of law, in respect to the collection of State and county taxes, and proceedings to enforce the same, so far as applicable, shall apply to said assessments and taxes. The said sum of money shall be placed by the treasurer of the said County of Cook, to the credit of said Board of Park Commissioners, and shall be drawn by said board from the county treasurer by war-

rant, signed by the president and secretary of the board, and countersigned by the auditor, to be appointed as aforesaid, and in no other way; the appointment of such auditor or comptroller having been first duly certified by such president and secretary, and filed in the office of said treasurer of Cook County.

Sec. 10. **Closing highway.** It shall be lawful for said Commissioners to vacate and close up any and all public roads and highways, excepting railroads, which may pass through, divide or separate any lands selected or appropriated by them for the purpose of a park; and no such road shall be laid out through said park except as the said Commissioners shall lay out and construct.

Sec. 11. **No Commissioner to be interested in contracts.** No one of the said Commissioners shall be interested, either directly or indirectly, in any contract entered into by them with any other person; nor shall they be interested, directly or indirectly, in the purchase of any material to be used or applied in and about the uses and purposes contemplated in this act. And it shall be a misdemeanor for any Commissioner to be directly or indirectly interested, or in any way pecuniarily interested in any contract or any work of any kind whatever, connected with said park.

Sec. 12. **Commissioners removed.** The said Commissioners, or either of them, may be removed from office by the Judge of the Circuit Court of Cook County, upon the petition presented to him in term time or in vacation, by one hundred free-holders of said towns of South Chicago, Hyde Park, and Lake, if it shall appear, after hearing the proof before said judge, that

the said Commissioners, or either of them, have been guilty of misdemeanor or malfeasance in office under this act; and if the said judge shall remove any two or more of said Commissioners from office for any cause, before the expiration of their term of office, he is hereby empowered to appoint others in their stead, who shall fill such offices for and during the unexpired term of such Commissioners so removed.

Sec. 13. **Power to govern.** The said board shall have the full and exclusive power to govern, manage and direct said park; to lay out and regulate the same; to pass ordinances for the regulation and government thereof; to appoint such engineers, surveyors, clerks, and other officers, including a police force, as may be necessary; to define and prescribe their respective duties and authority; fix the amount of their compensation; and, generally, in regard to said park, they shall possess all the power and authority now by law conferred upon, or possessed by, the Common Council of the City of Chicago, in respect to the public squares and places in said city; and it shall be lawful for them to commence the improvement of said park as soon as they have obtained one hundred acres of the premises herein described.

Sec. 14. **Office vacant.** The office of any commissioner under this act, who shall not attend the meetings of the board for three successive months, after having been duly notified of said meetings, without leave of absence from said board, may, by said board, be declared vacant.

Sec. 15. **Taxation.** The real estate and personal property of said corporation shall be exempted from taxation and assessment.

Sec. 16. Bonds and funds for park improvements. All moneys belonging or to belong to any park fund now in existence or hereafter to be created, and all bonds, and the proceeds from sales thereof now authorized or hereafter to be authorized to be issued by the City of Chicago for park purposes, in or to which the South Division of the City of Chicago may now or shall hereafter be entitled to a distributive share, shall be devoted and applied to the purchase or maintenance and improvement of the park contemplated and created by this act, under the direction and control of the Commissioners provided for in this act.

Sec. 17. Bonds received in payment of assessment. The bonds to be issued under this act may be received in payment of any assessment, whether such bond or assessment shall have become due or not, upon such terms as shall be fair, just and equitable; and upon the payment of any assessment, the land upon which the same is assessed shall be free from any lien or liability to pay the same; and such payment shall be reported to the County Clerk of Cook County, and entered upon the record of assessment.

Sec. 18. Election, judges, clerks, voters. There shall be an election held in the towns of South Chicago, Hyde Park, and Lake, on the fourth Tuesday in March next after the passage of this act, at which election the legal voters voting at such election shall vote for or against this act. The tickets shall be printed or written, "For Park" or "Against Park;" and if a majority of the votes cast on the subject of park shall be "For Park," then this act shall take effect and be in force, but not otherwise. The Clerk of the County

Court of Cook County shall designate the places of holding such election, and give notice thereof in one or more of the daily papers published in the County of Cook, at least six days preceding such election, and shall supply the judges thereof with the necessary books, papers, and boxes as in other cases of election, and there shall be one polling or voting place in each voting precinct in said towns, as the same were fixed at the last general election in the County of Cook. The persons who acted as judges or inspectors of election in the several precincts of said towns, at the last general election in Cook County, shall be the judges or inspectors of this election. In case the judges or inspectors of election shall not attend at the time for opening the polls, such judges or inspectors shall be chosen by the legal voters present. The clerks shall be appointed as provided in elections for county officers. The polls shall be opened and closed, and the election conducted as elections for county officers. All legal voters of said towns shall be entitled to vote at such election, without any new registration; and the judges or inspectors of such election shall use the registry list made for the general election in November, 1868: Provided, That whenever any person whose name is not on the registry list shall offer his vote at such election, the judges or inspectors shall require the same evidence of his qualifications as now provided by law. The said judges of election shall immediately after the closing of the polls, count the ballots, fill out and sign the returns and tally sheets, as now provided by law in all other elections, and return the poll books and ballots to the Clerk of the County Court, as in other cases of election. The votes shall be canvassed in the

manner provided by law for the election of State and county officers. The Clerk of the County Court of Cook County shall, immediately after such canvass, cause a certificate of the result of such election to be filed in the office of the Secretary of State, which shall be conclusive evidence of the result of said election.

Sec. 19. This act shall be a public act, and shall take effect and be in force from and after its passage.

[APPROVED JUNE 16, 1871. IN FORCE JULY 1, 1871.]

Section 1. **Park Commissioners corporate authorities.** That persons who have been appointed or otherwise selected, as Commissioners or officers under and in pursuance of any act or acts of the General Assembly of this State which has or have been submitted to the legal voters of one or more towns, and by them respectively adopted, for the purpose of locating, establishing, enclosing, improving or maintaining any public park, boulevard, driveway, highway or other public work, or improvement, are declared to be corporate authorities of such towns for the purposes named in such act or acts; whether such persons are authorized to discharge the duties imposed upon them as a corporation or otherwise.

Sec. 2. **New bonds issuable for old park bonds.** Corporate authorities of towns who have been authorized by law to issue bonds for the purpose of establishing, enclosing, improving or maintaining any public park, boulevard, driveway, highway, or other public work, or improvement in such towns, may issue new bonds, payable not more than twenty years from the date thereof, and the same exchange for bonds issued by such corporate authorities for the same purpose.

The said corporate authorities may purchase any bonds issued by them, at any rate not exceeding the par value thereof, and issue in lieu of the same, bonds payable as aforesaid; such new bonds shall be issued under the seal of said corporate authorities, if they have one, and shall be signed by them and countersigned by their Secretary, if they have one, and bear interest not exceeding seven per cent. per annum, payable semi-annually; and the principal and interest may be made payable at any place or places, within or without this State. The said bonds shall also contain a provision securing to said corporate authorities the right, if the said bonds or a sufficient number of them, cannot be purchased at not exceeding one per cent. above the par value thereof, for the yearly sinking fund hereinafter provided, to pay and retire at the end of each year after the date of said bonds, or so soon thereafter as due notice shall have been given, such number of the same, as may be necessary for that purpose, to be selected by lot by said corporate authorities, in the manner hereinafter provided. It shall be the duty of said corporate authorities to keep an accurate register of all bonds issued by them, showing the number, date and amount of each bond, and said register shall, at all times, be open to the inspection of the public. The public park, boulevard, driveway, highway, or other public work or improvement, on account of which said bonds may be issued, shall be irrevocably pledged for the payment of the principal and interest thereof, and the town in which such public park, boulevard, driveway, highway, or other public work or improvement are in whole or in part situated, shall also be irrevocably bound for the payment of the same. Bonds issued under this act

may be exchanged as aforesaid, or sold by said corporate authorities for such prices as they may deem expedient, but the proceeds of bonds sold shall only be used for the payment or purchase of outstanding bonds which cannot be exchanged. The bonds received in exchange or purchased as aforesaid shall be cancelled, whereof an entry shall be made upon the bond register of said corporate authorities, showing the date, number and amount of each bond cancelled; and no bonds shall be issued under this act exceeding the amount already issued, nor contrary to the provisions of section twelve, article nine, of the Constitution of this State, nor until provision is made by law for the collection of a direct annual tax sufficient to pay the interest on such bonds as it falls due, and also to pay and discharge the principal thereof on or before the time when the same shall become due. And whenever any provision has been made by any act or acts of the general assembly of this State for the assessment and collection of an annual tax in order to pay the interest on bonds issued by said corporate authorities, the provisions of said act or acts are hereby continued and extended, so as to require the assessment and collection of said annual tax, not only for the purpose of said act or acts named, but for the payment of the interest on any bonds which may be issued under this act, and to provide for the annual payment of a part of the principal thereof. Officers collecting said annual tax are required at the end of each month, to pay to said corporate authorities, so much of said tax as has been collected, and for collecting and paying over of said annual tax, no compensation shall be allowed except the salary allowed by law to the collector thereof; and if,

for any cause, any portion of said annual tax required to be assessed and collected as aforesaid, shall for any one or more years fail to be collected, the said corporate authorities are required to add such deficiency or deficiencies to the amount required to be assessed in the succeeding year or years, and the amount of such deficiency or deficiencies shall be by the proper officers assessed and collected in the same manner as said annual tax, and as a part thereof. The said corporate authorities are required to cause said tax and any deficiencies occurring as aforesaid, to be assessed and collected as required by law, and to apply sufficient thereof from time to time to pay the interest upon said bonds issued, and which may be issued as the said interest shall fall due. And at the end of the year after the date of any bonds issued under this act, and of every year thereafter, the said corporate authorities shall, from the proceeds of said annual tax, set apart not less than three and one-fourth per cent. of the whole amount of bonds issued under this act, and a sum equal to the annual interest on said sum at the rate of interest borne by said bonds; which sum shall be applied by said corporate authorities in the purchase of bonds issued by them, if the same can be obtained at not exceeding one per cent. above the par value thereof; and if the said corporate authorities cannot obtain said bonds or sufficient of them to absorb said fund at that price, then from the outstanding bonds issued under this act, and not theretofore selected, shall be selected by lot, so many thereof, as may be required to absorb the funds so set apart for a sinking fund. The said selection shall be made by said corporate authorities at the end of each succes-

sive year after the date of said bonds, or within one month thereafter, in the presence of one of the Judges of the Circuit Court of said county, who with said corporate authorities shall make and sign duplicate certificates of the result thereof, one of which shall be filed in the office of the said corporate authorities, and the other in the office of the County Clerk of said county. Notice of said election and of the numbers of the bonds so selected, shall be forthwith given by said corporate authorities in one or more newspapers published in said county and in the City of New York, and if the owners of said bonds shall be registered, notice to such owners shall also be given by letter mailed to the address of such owner at his place of residence, if known or shown upon said register. The interest on bonds selected by lot, as aforesaid, shall cease from and after the time when the semi-annual interest on the same shall fall due next after the said selection is made; and, from the sums so set apart for a sinking fund, shall be paid the bonds so selected by lot as aforesaid, with interest until payment, or until the same shall cease as aforesaid. The funds so set apart for a sinking fund shall not be used for any purpose other than purchasing bonds to be cancelled, and paying bonds selected as aforesaid for the same purpose. The bonds so selected when paid, and the bonds purchased, shall be cancelled, a certificate whereof, stating the number, date and amount of said cancelled bonds, shall from time to time be made by said corporate authorities, and filed in the office of the County Clerk of said county.

Sec. 3. **Assessment, proceedings thereon.** Corporate authorities of one or more towns who have been

authorized to make, establish or maintain any local improvement, in whole or in part, by special assessment or special taxation of contiguous property, or otherwise, may estimate as near as may be the probable cost of the lands, taken or to be taken or purchased for such improvement, or revise, enlarge and correct any estimate theretofore made, and make a new one of the same, and of the expenses of obtaining said lands, together with the cost of making and collecting a special assessment to pay the cost of said lands and expenses, and shall apportion the estimated costs of said lands, expenses and the cost of assessment as aforesaid, upon the lands situated in said towns, by said corporate authorities deemed benefited by reason of said local improvement, as near as may be, in proportion to the benefit resulting thereto. And if said corporate authorities shall not deem the lands in said towns benefited to the full extent of the estimated cost of the lands, taken or to be taken or purchased as aforesaid, and the costs and expenses aforesaid, then the said corporate authorities shall in like manner apportion so much thereof as they shall deem the lands in said town benefited. The said corporate authorities shall give at least ten days notice in one or more newspapers published in the county in which such towns are situated, of the time and place of their meeting for the purpose of making said assessment, and may adjourn such meeting from time to time, until the same shall be completed.

In making the said assessment, the lots, blocks and parcels of land deemed benefited, as aforesaid, shall be assessed, according to the descriptions and divisions thereof appearing of record in said county, on the day

of the said first meeting, for the purpose of making the said assessment; but no error in the description or division of any lot, block or parcel of land, in making said assessment, shall vitiate the same, provided the premises are described with substantial accuracy. The said corporate authorities shall estimate the value of the several lots, blocks or parcels of land deemed by them benefited as aforesaid, and shall include the same, together with the amount assessed for benefits, in an assessment book or roll. All parties interested may appear before said corporate authorities, and may be heard touching any matter connected with the assessment.

When the same shall be completed it shall be signed by the said corporate authorities, or by a majority thereof, and returned to the Circuit Court of the county in which such towns are situated, and filed with the clerk of said court,—whereupon the said corporate authorities shall give at least ten days' notice of the filing of said assessment roll, and that they will on a day named, apply to the said Circuit Court for confirmation of the same. Said notice shall be signed by said corporate authorities, or by a majority of them, and shall state the general nature of the improvement for which said assessment was made, and the towns, township, range and section in which the same is situated, without further description of its locality; and shall also state when the said assessment was filed in said court and the day when the said corporate authorities will apply to said court for confirmation of the same; but said notice need not contain a description of the lots, blocks or parcels of land assessed, nor the amount assessed upon them, or any of them, nor men-

tion any particular law or laws of the State under which said assessment was made; which said notice shall be published in one or more newspapers published in the county in which said towns are situated, at least ten days before the time therein named for such application. When it shall appear to said court that proper notice has been given, it shall have power to hear, adjudge and determine the matter of said application, and all matters connected therewith. Any person interested in any lot, block or parcel of land assessed, may appear therein, in person or by attorney, and object to said assessment: Provided, All objections shall be in writing and be filed in said court at least three days before the time fixed for said application, and shall specify the lots, blocks or parcels of land wherein the said person objecting is interested, in respect whereof objections are made, and the grounds thereof; said court shall have power to revise, correct, amend and confirm the said assessment, in whole or in part, and may, without further notice or order, make a new assessment in whole or in part, and the same confirm, or may order a new assessment to be made in whole or in part, and the same may revise, correct, amend and confirm upon like notice as aforesaid, or upon such notice as it may prescribe, but no order to make a new assessment in part shall hinder or delay the confirmation of the residue, or the collection thereof. From and after the time the amount of any assessment shall be ascertained and confirmed by said court, as to any lot, block or parcel of land so assessed, the amount thereof shall be a lien thereon, and may be paid at any time. The said court shall divide the amount of said assessment into install-

ments, and fix the amount of the first installment, but the first installment shall not exceed twenty-five (25) per cent. of the said assessment.

The portion of said assessment, after deducting therefrom said first installment, shall be divided by the court into seven equal installments, which said installments shall be payable annually thereafter, and the court shall fix the time on or before which each of said installments shall severally be paid. All installments shall bear interest at the rate of seven per cent. per annum from the time on or before which the payment of the first one is to be made. The said corporate authorities, or their officer, from time to time duly authorized by them, and to be mentioned in some order or orders of said court, which it may from time to time make, shall have full power and authority to collect such assessment from the owners of such lands, and to give all proper receipts and discharges therefor. The orders of said court shall be conclusive evidence of the regularity of all previous proceedings necessary to the validity thereof, and of all matters and things therein recited as having been heard and adjudged by said court. It shall be the duty of the clerk of said court to enter in said assessment book or books, or upon said assessment roll, all revisions, corrections and amendments of such assessment, and all new assessments made by the court, and all revisions, corrections and amendments of the same, and all orders for new assessments and all new assessments made in pursuance of such order, and all revisions, corrections and amendments of the same, together with all orders of the court in said proceedings.

The said corporate authorities are required to fur-

nish to the clerk of said court a duplicate copy of said assessment book or books, or roll, wherein shall be entered from time to time by said corporate authorities the several matters and things entered in said original assessment book or books, or upon said original assessment roll, which duplicate and the entries thereon, shall from time to time, as they are made, be certified by the clerk of said court, under the seal thereof, as a true copy of the original, and such duplicate copy of the assessment book or books, or roll, certified as aforesaid, shall be sufficient authority to said corporate authorities, or to their officer designated therein, to collect any assessment therein confirmed as aforesaid, and to receipt for and discharge the same. It shall be the duty of the officer having the custody of said original assessment book or books, or roll, to enter thereon from such receipt or discharge the fact of such payment, which entry shall be evidence of the same. After the proceedings in the said Circuit Court shall be finally concluded and terminated, it shall be the duty of the clerk thereof to deposit said original assessment book or books, or roll, and all proceedings relative to the same, duly entered as aforesaid, and properly certified, with the County Clerk of the county in which such towns are situated.

In case said assessment, or any part thereof, so confirmed as aforesaid, shall not be paid at the time or times fixed therefor by the orders of said Circuit Court, it shall be the duty of the corporate authorities to return to the County Treasurer, or to some general officer of said county having authority to receive State and county taxes, a list of the lots, blocks and parcels of land so assessed, upon which said assessment shall re-

main unpaid, and the amount unpaid upon each lot, block or parcel of land, and from and after the return of such delinquent list, the said County Treasurer or other general officer of said county having authority to receive said State and county taxes, as well as said corporate authorities, or their officer, shall have authority to receive any of said unpaid assessments, and to give all proper receipts and discharges therefor. It shall also be the duty of said corporate authorities to make and certify to the County Court in which such towns are situated a return, therein designating the said delinquent lands and the due and unpaid assessments against the same; and thereupon the said corporate authorities shall give notice by publication in one or more of said newspapers, that they will, on a day in said notice named, apply to said County Court for judgment against all delinquent lots, blocks or parcels of land upon which said assessment, or any part thereof, shall be unpaid. Such notice may be general, but must contain a description of the lots, blocks or parcels of land and the names of parties interested, if known, and the amount due and unpaid, which notice shall be published in one or more of said newspapers at least ten days before the time fixed for making said application, and the said application may be made on the day named, or any day of the same term by the permission of said court. The said corporate authorities and the said County Treasurer, or other general officer of said county, to whom said delinquent list shall have been returned, shall respectively report to said court the respective lots, blocks and parcels of land upon which said assessment has been paid to them respectively, after the return of said delinquent lists as aforesaid.

And thereupon such proceedings, orders and judgments shall be had, as nearly as may be, as in cases of delinquent lands whereof judgment is prayed for the non-payment of State and county taxes; and the said judgments shall be conclusive of the regularity of all matters necessary to the validity thereof, excepting the giving of said notice of the application for judgment. After said notice for application for judgment shall have been published, the cost of publication shall be added to the assessment, as in the case of State and county taxes. After judgment shall have been rendered, the same shall be executed in the same manner, as nearly as may be, as is or may be provided by law for executing judgments for State and county taxes; but no judgment or sale of any lot, block or parcel of land so assessed for any one installment of said assessment, shall discharge the premises from any subsequent installment of the assessment, and proceedings for the non-payment of subsequent installments may be had in the same manner as if no default had been made in previous ones. All moneys collected by said treasurer or other general officer of said county, and all moneys realized from the sales of said lands upon judgments as aforesaid, shall at once be paid over to said corporate authorities, who shall execute a proper receipt therefor. The said County Treasurer or other general officer shall not be entitled to any compensation for receiving and disbursing of moneys by him under this act, or for services rendered by him as herein required, except the salary allowed him by law. Any and all moneys collected and obtained upon or out of said assessments, may be applied by the said corporate authorities to and for any of the uses and purposes named

or intended by the act or acts under which they are organized. And if the proceeds of said assessment shall amount to a greater sum than the cost of the lands, expenses and cost of assessment and collection as aforesaid, the overplus shall be applied by said corporate authorities toward making the improvement which they are authorized to make: Provided, that such excess shall not exceed the sum of twenty-five thousand dollars. If it exceeds that sum, then and in that case it shall be refunded pro rata to the parties paying such assessment. Any and all such corporate authorities as aforesaid may avail themselves of the provisions and privileges of this act, notwithstanding any provisions in the several acts creating them.

Sec. 4. Altering location or boundaries—Damages. Corporate authorities of towns having the control or supervision of any public park, boulevard, driveway or highway, which has been located in pursuance of a vote of the people of such towns, desiring to alter or change the location of the same, or of any part thereof, or of any of the boundary lines of the same, may, by petition, in writing, apply to the Circuit Court of the county in which such towns are situated, for leave to make such alteration or change. Notice of such application shall be given by said corporate authorities in some newspaper published in said county, at least ten days before the day named therein when said application will be made. All persons interested may appear before said Circuit Court, either in person or by attorney, when said application shall be made, and object to the granting thereof. After hearing all persons interested, if said court shall deem the granting of said application to be for the pub-

lie interest, it shall make an order granting to said corporate authorities leave to make such alteration or change, or such part thereof, as it may deem for the public good, and granting power to acquire by purchase or under any law of the State for acquiring lands for public use, such additional lands as such change or alteration may, in the judgment of said court, render necessary; and if by reason of any such change or alteration, any parcel of land shall no longer be deemed necessary or useful for the purpose of said park, boulevard, driveway or highway, the said court may direct the same to be sold and conveyed for the use of said park upon such terms and conditions as it may think proper. Damages sustained by any person injuriously affected by reason of any such change or alteration, shall be ascertained and paid in the same manner as in other cases of the exercise of the right of eminent domain. The said corporate authorities shall make, acknowledge and file for record in the office of the recorder of deeds for such county a map showing any change or alteration made under any order of court, as aforesaid; Provided, that no application shall be made under or by virtue of this section after the first day of July, A. D. one thousand eight hundred and seventy-two, nor shall any change be made affecting the general location of any such park after said date.

Sec. 5. Application of surplus funds—Report. When any town, towns or corporation is subject to taxation or special assessment for the improvement of any park or parks, approached or connected by boulevard or boulevards, the money so raised by taxation or special assessment remaining unexpended after de-

fraying the expense for improving the boulevard or boulevards (the money so raised by taxation or special assessment remaining unexpended after defraying the expense for improving the boulevard or boulevards) to said park or parks, shall be expended upon the parks (if more than one) in said town, towns or corporation, pro rata, according to the number of acres in each, unless already sufficiently improved, and it is hereby made the duty of the Board of Commissioners of any park or parks to cause the money to be so expended. The Commissioners having in charge the maintenance and improvement of any public park, or parks, boulevard, driveway, highway or other public improvement under or by virtue of this act, shall, on the first day of December, A. D. one thousand eight hundred and seventy-one, and annually thereafter, submit to the Board of County Commissioners or Board of Supervisors in the county in which the same may be located, a written or printed report of all their acts and doings in relation to the parks and other improvements under their supervision or control.

Sec. 6. All laws and acts inconsistent with this act are hereby repealed.

Whereas, Many Grand Army posts, members of the Grand Army, civic organizations and clubs, and citizens of the City of Chicago, and State of Illinois, have petitioned the General Assembly to name and designate by act, the park which is making and about to be made upon the lake front in the City of Chicago; and

Whereas, The title to the land in Chicago, commonly known and designated as the "lake front," lying along the lake shore, and extending south of Randolph street, north of Park Row, and east of Michigan avenue, and a part of which is yet submerged under the waters of Lake Michigan, but the reclamation of which is contemplated and being now undertaken by the filling in from the present shore line hereafter, is still, we believe, in the State of Illinois; and

Whereas, The City of Chicago, by the action of the city council, has formally transferred the possession, care, improvement and management of said "lake front," to what is known as the "Board of South Park Commissioners," for the express purpose of establishing a public park and pleasure ground thereon, but the title to which not being vested in said "Board of South Park Commissioners," said board is prevented and delayed from carrying out and perfecting the plans necessary for the proper development and improvement of a public park in said "lake front," and in discharging all their obligations and duties in that behalf,

as contemplated and planned by said "Board of South Park Commissioners;" and

Whereas, There are now in the City of Chicago a number of public parks and squares named respectively after such illustrious statesmen, heroes and scientists as Washington, Lincoln, Jackson, Jefferson, Sheridan, Garfield, Douglas, Logan, Dearborn and Humboldt but not one named after the great, silent soldier of Illinois, U. S. Grant; therefore.

Sec. 3. All of the work provided for in this ordi-

CITY OF CHICAGO ORDINANCE REQUIRING THE ILLINOIS
CENTRAL RAILROAD COMPANY TO RAISE ITS ROAD-
BED AND TRACKS BETWEEN FIFTY-FIRST AND SIXTY-
SEVENTH STREETS IN THE CITY OF CHICAGO. [PASSED
MAY 23, 1892.]

Whereas, In order to provide increased facilities for the conveyance of passengers and freight to and from Jackson Park during the continuance of the World's Fair, to be held there in the year 1893, and to remove as far as practicable impediments to the future use of the public streets intersecting the tracks of the Illinois Central Railroad Company between Fifty-first street and Sixty-seventh street, both inclusive, the public interests imperatively require that the railroad tracks of that company within the aforesaid limits shall be raised to a sufficient height above the present surface of the roadbed to admit of the intervening streets being carried under the said tracks.

BE IT, THEREFORE, ORDAINED BY THE CITY COUNCIL OF
THE CITY OF CHICAGO:

Section 1. That permission and authority are hereby given the Illinois Central Railroad Company, and the said company is hereby required to elevate its roadbed and tracks between the north line of Fifty-first street and the south line of Sixty-seventh street in the City of Chicago to the height of eighteen (18) feet above the city datum at Fifty-first street, thence rising by a gradual ascent to nineteen (19) feet above city

datum at Fifty-third street, which elevation shall be maintained as far south as the south line of Sixty-seventh street.

Provided, Such grade shall not extend on the north farther than Forty-seventh street, and, provided, such grade shall not extend further than Seventy-first street on the south.

The railroad tracks laid upon the elevated roadbed may be connected with the surface tracks at each end by the use of such gradients as the company shall deem necessary for the efficient operation of its railroad.

Sec. 2. The new roadbed shall be constructed upon a solid embankment of earth or other suitable material, except at the street intersections, and shall be of sufficient width to admit of the construction and maintenance of not less than ten (10) tracks thereon. The work shall conform as nearly as may be to the plans shown upon the drawings hereto annexed, and which are hereby made a part of this ordinance, and shall be done under the supervision and direction of the Commissioner of Public Works of the City of Chicago; but the company shall be at liberty to increase the width of the roadbed and lay additional tracks thereon at any time or times hereafter, to such extent, within the limits of its present right of way, as the necessities of its business shall seem to it to require.

Sec. 3. Open spaces shall be left in the embankment for all streets now crossing the right of way of said company, also for the extension of Fifty-fifth, Fifty-sixth, Fifty-seventh, Sixtieth, Sixty-fourth, Sixty-fifth and Sixty-sixth streets, across the right of way, corresponding in width to the width of the respective streets

at the place of crossing; and abutments of solid stone or brick masonry shall be constructed and maintained by said railroad company on each side of such open spaces and clear of the line of the streets. In order to furnish available room for the use of the railroad company on either side of the street crossing beneath the tracks, the abutments may be set back at such distance from the line of the street as may be deemed necessary. The tracks shall be carried across these open spaces upon iron or steel girders, for the support of which a row of iron or steel posts may be placed along the curb line on each line of the street below; these curb lines to be parallel to and to be fixed at equal distances from the center of the street, and at a distance from each other equivalent to sixty (60) per cent. of the width of the street. Suitable fenders may be placed at the base of each post to protect it from injury from passing vehicles. No part of the girders of superstructure supporting the railroad tracks shall be less than eighteen (18) feet above the city datum at Fifty-first street, nor less than nineteen (19) feet at the other street crossings. Said work shall be done under the direction and supervision of the Commissioner of Public Works.

There also shall be left, south of and adjoining a line 66 feet south of the north line of Fifty-ninth street, and north of and adjoining a line 66 feet north of the south line of Sixtieth street, at both places, an opening not less than fifty feet wide, in the clear, at all points, and north of the southerly opening and south of the northerly opening there shall be left openings not less than 12 feet wide, in the clear, at all points. The support for the tracks between the larger and smaller

openings shall be iron or steel columns, and at the extremities of the openings shall be stone abutments with rock face coursed masonry on the exposed surfaces, with suitable slope walls at either end. The entire structure shall be tightly floored and concreted. In case it shall be necessary to depress the said roadways running under tracks, the said railroad company shall provide and maintain an efficient system of underground sewerage to carry off the surface water. There shall also be constructed and properly lighted and maintained by said railroad company a suitable pedestrian subway, at the place of the extension of Sixty-second street, said subway to be an arch of masonry not less than ten (10) feet in width and ten (10) feet in height, and as nearly as practicable at the present street grade.

Sec. 4. All streets, avenues, alleys and highways now crossing said railroad, or that may be hereafter extended across the same, between Forty-seventh street and Sixty-seventh street, shall be carried under the tracks of the said railroad, and at all openings required to be left in the embankment for that purpose by the terms of this ordinance, said railroad company shall cause the surface of the ground to be depressed to a sufficient depth to leave a clear space between the surface of the roadway when completed and the superstructure of the railroad carried over it, not less than eleven (11) feet at Fifty-first street and Fifty-third street, and not less than twelve (12) feet at Fifty-fifth street, Fifty-sixth street, Fifty-seventh street, Fifty-ninth street and Sixtieth street, and not less than twelve and a half (12-1/2) feet at Sixty-third

street, Sixty-fourth street, Sixty-fifth street, Sixty-sixth street and Sixty-seventh street.

Sec. 5. The cost of constructing suitable approaches to the depressed streets under the railroad tracks, and of paving the streets under the railroad tracks and the approaches thereto, and constructing suitable sidewalks and providing for water pipes and drainage in said depressed streets, shall be paid by the railroad company, the work to be done in accordance with plans approved by the Commissioner of Public Works and under his direction.

Sec. 6. The work herein required to be done shall be commenced as soon as practicable and be thenceforth continuously and diligently prosecuted, and shall be completed on or before the first day of May, 1893. The work shall be done in such manner as not to unnecessarily obstruct the operation of the railroad or the use of the streets; but such temporary interference with the use of the streets as shall be found necessary in the proper prosecution of the work is hereby permitted.

Sec. 7. In order to maintain the connections with the branch railroad leading to Washington Park, at or near Sixty-first street, the branch railroad leading to the Oakwood Cemetery at or near Sixty-seventh street, and the connection with the South Chicago Railroad in the vicinity of Sixty-ninth street, the location and grade of said branches, and said South Chicago Railroad may be so changed, raised and modified as may be necessary to obtain a suitable and convenient connection and approach to the elevated tracks of said Illinois Central Railroad Company.

Sec. 8. The said railroad company, its successors and assigns, shall have the right of maintaining and using the said elevated railroad, and may exercise all such powers, authority and control over or in respect to the same as may be now lawfully exercised by it upon any part of its line within the City of Chicago; but nothing herein contained shall be held to limit or impair the lawful authority, power or control over railroads vested in the City Council.

Sec. 9. The consent, permission and authority hereby given are upon the further express condition that the said Illinois Central Railroad Company shall and will forever indemnify and save harmless the City of Chicago against any and all damages of every kind and character, including land and business damages, and any and all damages to property of every kind and character, and from any and all damages, judgments, decrees and costs, and expenses of the same, which it may suffer, or which may be recovered or obtained against said city for or by reason of the granting of or resulting from the passage of this ordinance, or any manner or thing connected therewith, or with the exercise by said company of any of the privileges hereby granted, or from any act or acts of the said company under or by virtue of the provisions of this ordinance.

Sec. 10. This ordinance shall take effect and be in force from and after its acceptance by said corporation under its corporate seal; provided that if the said company shall not file with the city clerk its formal acceptance of the terms and conditions of this ordinance within thirty days from the passage hereof, then all rights and privileges hereby granted shall be wholly null and void and of no effect.

That consent, authority and permission are hereby granted to the Lake Shore & Michigan Southern Railway Company, and to the Chicago, Rock Island & Pacific Railway Company, to elevate the plane of their railway tracks across Garfield boulevard in accordance with the provisions and upon the conditions in this ordinance set forth.

Sec. 2. The structure to be erected over and across the said boulevard shall consist of three spans. The northerly span shall be supported at its north end upon a stone abutment constructed north of the north line of said boulevard, and at its south end upon an

iron column located a short distance south of the south line of the north driveway of said boulevard, as hereinafter provided for. The southerly span shall be supported at its south end upon a stone abutment constructed south of the south line of said boulevard, and at its north end upon an iron column located a short distance north of the north line of the south driveway of said boulevard; and the middle span shall be supported respectively upon the south and north supports of the northerly and southerly spans.

Sec. 3. The surface of the boulevard shall pass beneath the said elevated structure by means of a subway under said tracks to be constructed by said railway companies, wholly at their own expense, which subway shall be so constructed that a minimum clearance or head-room of not less than thirteen and one-half feet shall be maintained at all points between the roadways in said subway and the overhead structure, and so that the top of the said roadways shall be fifteen and three-tenths feet above the plane commonly known and called "City Datum" in the City of Chicago under the entire distance of said elevated structure; and the sidewalks in said subway shall be so constructed that a minimum clearance or head-room shall be maintained at all points of not less than eight feet and ten inches between the highest point of said sidewalks and the lowest point of said overhead structure. The floor of the said elevated structure across said boulevard shall be fabricated in iron or steel, and shall be of the character technically designated and known as "solid construction," so as to be tightly floored over its entire length and width.

Sec. 4. Said railway companies shall construct two roadways in Garfield boulevard, each forty feet in width, from a point two hundred and twenty-five (225) feet west of their right of way to a point two hundred and fifty (250) feet east of their right of way, and so graded as to pass under the elevated structure of said railways with the minimum clearance as provided in the foregoing section. The north line of the north driveway shall be placed fifteen feet south of the north line of the boulevard, and the south line of the south driveway shall be placed fifteen feet north of the south line of the boulevard. Except where there is a stone curb wall, said driveways shall be constructed with combined concrete curb and gutter on each side thereof. Said driveways shall be paved or macadamized with macadam pavement not less than nine inches in thickness, similar to the pavement of the roadways of Garfield boulevard immediately east and west thereof. The space between said driveways, to be constructed as aforesaid, shall be properly graded up for a planting space, except under the said elevated structure, and there, such space shall be paved with a vitrified brick pavement upon a grade as nearly level with the planting space of said boulevard, on either side of said elevated structure, as practicable.

The said railway companies shall also construct and maintain an outlet sewer with such number of catch basins and manholes as shall be directed by the superintendent of the South Park Commissioners, for the purpose of draining the said subway, and which sewer, catch basins and manholes shall be so constructed and maintained as to fully drain the same, and run from

thence and empty into the sewer now constructed at State street.

The sidewalks and all necessary crosswalks shall be restored or constructed by said railway companies so as to conform to the provisions of this ordinance, and so as to meet the approval of the Superintendent of the South Park Commissioners. The said railway companies shall do all the work and furnish all the additional material required in order to carry out the provisions of this section, wholly at their own expense.

Sec. 5. The streets and alleys which open into or intersect Garfield boulevard where the said approaches are to be constructed, shall be properly graded down into the boulevard at the expense of said railway companies and repaved where they are now paved.

Sec. 6. If in the construction of said subway, or the approaches thereto, it shall become necessary to change the location of any water pipe, sewer, or electrical conduit, the same may be deflected from the position in which they are found and placed in brick conduits especially constructed for that purpose and carried entirely around said subway on either side thereof, or the same may be lowered, but all of said work shall be done by and at the entire expense of the said railroad companies.

Sec. 7. The plans and specifications for the said elevated structure, and for the columns and stone masonry supporting the same, and for the construction of the said subway, and the depression and construction of the driveways, pavement and sidewalks, as well as the construction of said sewer, and the changing of the said water pipes, sewer and electrical system, as well

as all other work to be done in accordance with the provisions of this ordinance, shall be submitted to and approved by the South Park Commissioners, or by their Superintendent, before any work shall be done under this ordinance, and such plans, when so approved, shall be taken to constitute a part of this ordinance, and all of the work upon or in connection with any of the matters or things provided to be done under this ordinance shall be done and performed subject to the inspection and approval of the Superintendent of the South Park Commissioners but wholly at the expense of said railway companies.

Sec. 8. Permission and authority are hereby given to said railway companies, whenever the same shall be necessary in carrying on the work of elevating their railway tracks, as herein authorized, to temporarily obstruct said boulevard, or part thereof, in such manner and for such length of time as may be approved by the Superintendent of the South Park Commissioners, and the said railway companies are hereby authorized in the prosecution of said work to erect and maintain a temporary structure or structures across said boulevard which shall be necessary or convenient to enable them to prepare for, or to erect, the permanent elevated structure herein provided for, subject to like approval of the Superintendent of the South Park Commissioners, and if, at any time, the said work shall not be prosecuted with reasonable rapidity or in a proper manner, then the South Park Commissioners reserve the right to remove any obstructions, and to stop the said work and to take full possession and control of that portion of said Garfield boulevard, notwithstanding this ordinance and any permit which may

have been issued thereunder, and to place such boulevard in reasonably good condition again, and in such case the said railway companies, jointly and severally, agree to refund to the South Park Commissioners any and all expenses which said South Park Commissioners may be at in doing such work.

Sec. 9. The said railway companies, jointly and severally, and their respective lessees, successors and assigns, by the acceptance of this ordinance respectively agree that they and each of them will forever indemnify and save harmless the said the South Park Commissioners from any and all damages, judgments, decrees, costs, attorney's fees and expenses for which the said the South Park Commissioners may be liable, or which may be recovered by reason of the passage of this ordinance, or the construction, maintenance and use of the said elevated structure, or any telegraph or signal device placed thereon by said railway companies, or either of them, or by reason of the construction, maintenance or operation of said elevated railways (or the depression of the said boulevard under said elevated structure), or in any way resulting from the passage of this ordinance, or from the exercise by said railway companies, or either of them, of any of the powers or privileges herein in this ordinance granted, or acts required to be performed; and if the South Park Commissioners shall be required to defend any suits brought on account of the passage of this ordinance, or any of the acts done by the said railway companies, or either of them, under the same, then the said railway companies, jointly and severally, agree to pay a reasonable amount for attorney's fees incurred

by the South Park Commissioners in defending the same.

Sec. 10. The said railway companies, jointly and severally, agree by the acceptance of this ordinance to forever light the said subway heretofore authorized to be constructed, in such manner as may be at any time directed by the South Park Commissioners, by order or resolution therefor.

Sec. 11. This ordinance shall take effect and be in force as soon as the said Lake Shore & Michigan Southern Railway Company and the Chicago, Rock Island & Pacific Railway Company, shall each file their formal acceptance with the secretary of the South Park Commissioners, provided, however, that if said acceptance shall not be filed with the said secretary, as aforesaid, within sixty days from the passage of this ordinance then this ordinance shall be void and of no effect.

Sec. 2. The structure to be erected over and across said Michigan avenue and said Grand and Drexel boulevards shall consist, each, of three (3) spans. The easterly end of the easterly spans and the westerly end of the westerly spans shall be supported upon stone or concrete abutments east of the east line and the west of the west line of said avenue and boulevards, and the other ends of the other spans shall rest upon iron or steel columns located outside of the lines of the driveways of said avenue and boulevards at points indicated upon the plans hereto attached, which plans are made a part of this ordinance. The surface of the said avenue and boulevard driveways shall in no instance be depressed to exceed twelve (12) inches below the top of the rails of said companies as at present laid where it passes beneath said elevated structures to be constructed by the said companies, and the said driveways on either side of said struc-

The driveways shall pass beneath said elevated structures at such grade that the minimum clearance or head-room of not less than thirteen and one-half ($13\frac{1}{2}$) feet shall be maintained at all points between the roadways beneath said subways and the over-head structures and so that the top of said driveway shall be at Michigan avenue, not less than eighteen and six one-hundredths (18.06) feet above City Datum; in Grand boulevard, twenty-one and eighty-five hundredths (21.85) feet above City Datum, and in Drexel boulevard, eighteen and five-tenths (18.5) feet above City Datum, in the City of Chicago. The said companies shall, at their expense, construct such driveways, walks and curbing beneath said elevated structures in said avenue and boulevards as are necessary to carry through said subway the uniform improvement of said avenue and boulevards in accordance with the plans therefor attached and according to the South Park Commissioners' specification for such work.

Sec. 3. The structure to be erected over and across said avenue and boulevards shall not exceed in Michigan avenue, forty-two (42) feet in width, at Grand boulevard, fifty-two (52) feet in width, and at Drexel boulevard fifty-three feet four and one-quarter inches ($53' 4\frac{1}{4}"$) in width, and shall extend entirely over said avenue and boulevards from the east line thereof to the west line thereof. Said companies may place

their tracks on said superstructure, but at Drexel boulevard and Grand boulevard the two (2) southernmost of said tracks shall be used exclusively for passenger trains. The said structures shall be painted by said companies in such a manner and of such a color as indicated by the South Park Commissioners, and shall be repainted by said companies when necessary, at least once in three (3) years. Said structures, and no portion thereof, shall be used for storing or switching of cars or locomotives, and said companies shall conform to any and all general ordinances of the South Park Commissioners now in force or hereafter adopted, and shall be subject at all times to all police powers vested in the South Park Commissioners. The floors of said elevated structures across said avenue and boulevards shall be fabricated in iron or steel and creosoted lumber, and shall be of a character technically known and designated as "solid construction," so to be tightly floored over its entire length and width, and so coated with asphaltum as to be as nearly water tight as possible. The floors shall be ballasted so as to render same as noiseless as possible. The said elevated structures and floors thereof, ballasted and coated as aforesaid, shall at all times be maintained by said companies in good condition and repair. The said companies shall construct and maintain such sewers and outlets as may be necessary for the proper drainage of said elevated structures and the driveways beneath and connect same with the City sewers. All the work to be performed by said companies shall be done in accordance with the specifications therefor approved by the South Park Commissioners, and to the satisfaction of said Commissioners.

Sec. 4. Detail plans for said elevated structures, for the columns and for the stone or concrete masonry for supporting the same, and all other work to be done by said companies in accordance with the provisions of this ordinance, shall be submitted to and approved by the South Park Commissioners, or by their superintendent, before any work shall be done under this ordinance, and such plans and specifications, when so approved, shall be taken to constitute a part of this ordinance, and all work upon or in connection with any of the matters or things provided to be done under this ordinance shall be done and performed subject to the inspection and approval of the South Park Commissioners, but wholly at the expense of said companies.

Sec. 5. If in the construction of said structures or the driveways, walks and planting spaces under said structures, it shall be necessary to change the location of any gas pipes, sewers or electric conduits, the same may be deflected from the position in which they are found as shall be directed by the South Park Commissioners, but all of said work shall be done by and at the expense of said companies.

Sec. 6. Permission and authority are hereby given to said companies whenever the same shall be necessary in carrying on the work of elevating their tracks, as herein authorized, to erect and maintain a temporary structure or structures across said avenue and boulevards which shall be necessary or convenient to enable them to prepare for or to erect the permanent elevated structures herein provided for, subject to the approval of the South Park Commissioners, but said work shall be done in such a manner that the

driveway of said Michigan avenue shall not be entirely closed to the public for more than thirty (30) days, and that one of the driveways of said Grand boulevard or one of the driveways of said Drexel boulevard shall be open to the public at all times, and that neither of the driveways in Grand and Drexel boulevards shall be closed for more than thirty (30) days. And if, at any time, the said work shall not be prosecuted with reasonable speed or in a proper manner, then the South Park Commissioners reserve the right to remove any obstructions and stop the said work and to take full possession and control of that portion of said avenue and boulevards notwithstanding this ordinance and any permit which may have been issued hereunder, and to place said portion of said avenue and boulevards in reasonable condition again, and in such case the said companies agree to refund to the South Park Commissioners any and all expenses which said South Park Commissioners may be at in doing said work.

Sec. 8. The said companies, jointly and severally, agree by the acceptance of this ordinance to forever adequately light the said subways herein authorized to be constructed, by the placing in each of such sub-

ways at least two (2) two-thousand candle power arc lamps, and operating the same between dusk and daylight each day.

Sec. 9. The consent, permission and authority hereby given are upon conditions that the said companies, and each of them, their successors and assigns, jointly and severally, shall and will forever indemnify and save harmless the South Park Commissioners from and against any and all losses, damages, decrees and costs, attorney's fees and expenses for which the said South Park Commissioners may be liable or which may be recovered against said Commissioners by reason of or growing out of or resulting from the passage of this ordinance, or the construction, maintenance and use of said elevated structures or of any telegraph or signal device placed thereon by said companies or either of them, or by reason of the construction, maintenance and operation of said elevated railway or the depression of said avenue and boulevards or approaches thereto; or in any way resulting from the passage of this ordinance, or from the exercise by said companies, or either of them, of any of the powers, or privileges in this ordinance granted, or acts required to be performed; and if the said South Park Commissioners shall be required to defend any suits brought in any court, on account of the passage of this ordinance, or any of the acts done by said companies, or either of them, under the same, or if the said Commissioners shall be obliged to incur any costs or expenses in enforcing any of the provisions of this ordinance or in suing for or collecting any sum or sums expended hereunder, then said companies, and each of them, agree to pay said costs and expenses,

and in addition thereto a reasonable amount for attorney's fees incurred by said South Park Commissioners in defending or prosecuting said suit; it being the intention of said companies not to waive, by the acceptance of this ordinance, any right or claim of said companies against the City of Chicago based upon any ordinance of the City or any contract between the companies and the City.

Sec. 10. The consent, authority and permission herein granted to said companies is made conditional upon the performance by them, and each of them, their successors and assigns, of each and every agreement, obligation and condition in this ordinance imposed upon said companies. And it is expressly agreed by said companies and each of them, that the deposit in the Chicago Post Office of a notice signed by the secretary or superintendent of the South Park Commissioners addressed to the president of any of said companies, their successors or assigns at its principal office in Chicago, Illinois, shall be sufficient notice to each and every of said companies, their successors and assigns, in all cases in which notice to said companies is hereinbefore provided or required to be given by said South Park Commissioners or any officer or employee thereof.

Sec. 11. LEGES TO THE ILLINOIS CENTRAL RAILROAD COMPANY.
[PASSED OCTOBER 21, 1895.]

Whereas, It was decided and adjudged in and by the final decree of the Circuit Court of the United States for the Northern District of Illinois, entered September 24, 1888, in the original suit of The People of the State of Illinois, upon the relation of the Attorney General of said State, complainants, against the Illinois Central Railroad Company and the City of Chicago, defendants, and the cross suit of the City of Chicago, complainant, against the Illinois Central Railroad Company and The People of the State of Illinois, defendants,—which decree was afterwards, in this respect, affirmed on appeal by the Supreme Court of the United States,—that (saving the rights of the Illinois Central Railroad Company defined in the said decree) the fee of all the public grounds in the City of Chicago lying east of Michigan avenue and between the north line of Randolph street extended to Lake Michigan and the north line of Block twenty-three, extended to the lake, in fractional section fifteen addition to Chicago, including the grounds upon which rest the tracks and breakwater constructed by the Illinois Central Railroad Company, is in the City of Chicago in trust for public use; and that the City of Chicago, as riparian owner of said grounds on the east or Lake Front of said city, between the north

line of Randolph street and the north line of said Block twenty-three, each of said lines being produced to Lake Michigan, and in virtue of authority to that end conferred by its charter, has, among other powers, the power to establish, construct, erect and keep in repair on said Lake Front east of said premises, in such manner as may be consistent with law, public landing places, wharves, docks and levees, subject, however, in the execution of this power, to the authority of the state by legislation to prescribe the lines beyond which piers, docks, wharves and other structures other than those erected by the General Government, may not be extended into the waters of the harbor that are navigable in fact, and to such supervision and control as the United States may rightfully exercise in and over said harbor; and

Whereas, The public interests imperatively require that the power thus vested in the City of Chicago should not be exercised, and permission has been obtained from the Secretary of War, according to the form of the statute of the United States in such case made and provided, to fill in a portion of the outer harbor at Chicago, as far out as the harbor line established by the Secretary of War September 28, 1890, upon the following conditions:

1. That there shall be constructed along the dock line, entirely closing the area to be filled, before any deposit whatever may be made, a substantial and tight bulkhead or retaining wall, extending not less than six feet above extreme low water in Lake Michigan, so constructed that it shall allow dredging to a depth of twenty (20) feet against it, and shall be of suf-

ficient mass to act as a retaining wall against a back filling reaching to its top.

2. That not more than two openings, one hundred feet in width each, shall be temporarily left in this retaining wall or bulkhead for the passage of craft transporting the material for filling or deposit, which openings shall be closed upon notification by the Secretary of War.

3. That the plans of such bulkhead or retaining wall shall be submitted to and receive the approval of the Secretary of War, and the structure be built in accordance with such approved designs.

4. That the work so permitted to be done shall be subject to the supervision and approval of the Engineer Officer of the United States Army in charge of the locality; and

Whereas, It is necessary to the successful prosecution of the said work and to secure safe and convenient access and egress to and from the grounds proposed to be filled and reclaimed, lying east of the Illinois Central Railroad, that an amicable arrangement and agreement be made by and between the City of Chicago and the Illinois Central Railroad Company; and

Whereas, The Common Council of the City of Chicago and the Illinois Central Railroad Company entered into a contract, bearing date March 28, 1853, which was duly executed under their respective seals, by which, among other things, the City of Chicago, for valuable considerations, covenanted and agreed that said railroad company might "enter upon and use in perpetuity for its said line of road, and for works

necessary to protect the same from the lake, a width of three hundred feet from the southern boundary of said public ground, near Twelfth street, to the northern line of Randolph street," only a part of which has been occupied by said company; and it is claimed by said railroad company that the City of Chicago is bound in good faith to carry out said covenant by giving the license mentioned in the decree of the court in the suit above referred to, which shall authorize said company to occupy the whole of said 300 foot strip; and

Whereas, The parties to said contract will each be better accommodated by an arrangement permitting the said railroad company to appropriate and occupy for railroad purposes certain parcels of ground at each end of the said three hundred foot strip, instead of the full width of said strip throughout the entire length thereof; and

Whereas, It is understood that the Illinois Central Railroad Company is willing, for the considerations and on the terms and conditions hereinafter set forth, to comply with the provisions of this ordinance, so far as they relate to any matters or things required of, or to be undertaken, done or performed by said company; therefore

BE IT ORDAINED BY THE CITY COUNCIL OF THE CITY OF CHICAGO:

Section 1. That for the purpose of providing suitable public landing places for steam vessels and other craft employed in navigation on Lake Michigan, the public grounds of the City of Chicago, known as Lake Park, lying east of Michigan avenue and between the

south line of Randolph street and the north line of Lake Park place (formerly known as Park Row) shall be extended east of the tracks and grounds of the Illinois Central Railroad Company, by enclosing and filling all that space in the shallow waters of Lake Michigan within the Outer Harbor, so called, included within the following boundary lines, to-wit: The south line of Randolph street produced, on the north; the Harbor Line established by the Secretary of War September 22, 1890, on the east; the south line of Lake Park place, produced, on the south, and the present westerly shore line of the said Outer Harbor, on the west.

thence on a six degree (6°) curve to the right about five hundred and fifty (550) feet to a point in the present dock line on or near the south line of Randolph street produced, sixteen hundred and twenty (1620) feet east of the west line of Michigan avenue. Provided, however, that the said railroad company shall either pay to the city the cost of filling the said parcel of land or shall do the work of filling at its own expense.

Sec. 3. Permission and authority are also hereby granted to the said Illinois Central Railroad Company to enter upon and use in perpetuity for railroad purposes all that part of the land to be filled and reclaimed as provided in the first section of this ordinance, which lies between its present works and grounds on the lake shore and the following described line, that is to say: A line drawn from a point on the present shore or dock line seventy-four (74) feet north of the north line of Eldredge court produced east and six hundred (600) feet east of the west line of Michigan avenue, extending thence southeasterly, on a four degree (4°) curve to the left, about two hundred and fifty (250) feet, to a point six hundred and twenty-two (622) feet east of the west line of Michigan avenue; thence, on a tangent to the last mentioned curve making an angle of ten degrees (10°) with a line parallel to the west line of Michigan avenue, about seven hundred and ninety (790) feet to a point in the south line of Lake Park place, produced easterly, seven hundred and sixty-one (761) feet east of the west line of Michigan avenue; Provided, however, that the said railroad company shall either pay

to the city the cost of filling the said parcel of land or shall do the work of filling at its own expense.

Sec. 4. Permission and authority are also hereby granted to the said Illinois Central Railroad Company to enter upon, fill in, appropriate and use in perpetuity for railroad purposes all that certain parcel of land now covered by the shallow waters of the lake within the said outer harbor, which lies between the present shore line and the following described line, to-wit: A straight line drawn from a point in the south line of Lake Park place, produced easterly, seven hundred and sixty-one (761) feet east of the west line of Michigan avenue, extending thence southeasterly, making an angle of forty-five degrees (45°) with a line parallel to the west line of Michigan avenue, about seven hundred and seventy (770) feet, to a point in the north line of the Illinois Central Railroad Company's Thirteenth street pier, thirteen hundred and twenty (1320) feet east of the west line of Michigan avenue; provided, however, that the work of filling the said parcel of land shall be done by the said railroad company at its own expense.

Sec. 5. The permission, rights and authority herein granted to the said Illinois Central Railroad Company, are upon the express conditions following, that is to say:

1. The said railroad company shall, at its own expense, cause that section of its roadbed lying between the following described east and west lines, namely, a line two hundred (200) feet north of the north line of Peck court projected east and parallel thereto, and the north line of Monroe street projected east, to be

depressed in such manner that the base of the rails of the west and east tracks laid thereon shall not exceed in elevation six (6) feet above Chicago City datum; and the space between these two tracks shall be crowned sufficiently to afford proper drainage, but the base of the rails of the intermediate tracks there laid shall not exceed in elevation seven (7) feet above Chicago city datum. North and south of the two lines above described, the roadbed shall be so depressed and adjusted that the tracks laid thereon may be connected by suitable gradients with the tracks laid or to be laid north of the south line of Randolph street projected east, and south of the north line of Lake Park place projected east.

2. The said railroad company shall, at its own expense, cause two retaining walls to be constructed of mason work, one on the west side, and the other on the east side, of its roadway and grounds between Randolph street and Lake Park place, with suitable parapet walls or fences thereon, as may be approved or directed by the Commissioner of Public Works of said city, to guard the public from danger—the walls to be so placed that the east face of the retaining wall on the west side of the said railroad company's right of way shall be on a straight line extending northerly from a point in the north line of Lake Park place, four hundred (400) feet east of the west line of Michigan avenue, parallel to said avenue, to a point two hundred feet south of the south line of Randolph street extended, thence northwesterly in a straight line to a point in the north line of Randolph street one hundred (100) feet west of the line first above described extended northerly to the north line of Randolph

street extended; and the west face of the east retaining wall shall be on the following described line: Commencing at a point in the south line of Lake Park place projected east, seven hundred and sixty-one (761) feet east of the west line of Michigan avenue, extending thence northwesterly in a straight line seven hundred and ninety (790) feet to a point six hundred and twenty-two (622) feet east of the west line of Michigan avenue; thence on a four degree (4°) curve to the right, to a point seventy-four (74) feet north of the north line of Eldredge court produced east and six hundred (600) feet east of the west line of Michigan avenue; thence on a straight line six hundred (600) feet east of the west line of Michigan avenue and parallel thereto, to a point seventy (70) feet north of the north line of Adams street produced east; thence on a six degree (6°) curve to the right, about five hundred and twenty-five (525) feet, to a point seven hundred and fifty-one (751) feet east of the west line of Michigan avenue; thence on a tangent, making an angle of thirty-one degrees and thirty minutes ($31^{\circ} 30'$) with a line parallel to Michigan avenue, nine hundred and three (903) feet, to a point twelve hundred and thirty (1230) feet east of the west line of Michigan avenue; thence on a six degree (6°) curve to the right to its intersection with the north line of Randolph street, extended. The said walls shall be raised to an elevation of twenty-two feet above Chicago city datum, and shall be of sufficient strength and solidity to serve permanently the purpose for which they are to be erected.

3. The said railroad company shall at its own expense cause viaducts to be constructed across its

tracks and right of way in line with the projection eastward of not more than four streets between Randolph street and Lake Park place, to be designated by the city;—each of said viaducts to have a carriage-way and two foot-ways. It shall also, whenever directed so to do by the Commissioner of Public Works of said city, cause a foot-way to be constructed at its own expense across its tracks and right of way, in the line of any other street or streets between Randolph street and Lake Park place. The superstructure of each of said viaducts and foot-ways shall be of metal, and the lowest point of such superstructure shall not be less than sixteen (16) feet in the clear above the railroad tracks.

4. The said railroad company shall also, at its own expense, cause the Randolph street viaduct to be altered and extended so as to furnish access to the new made public ground east of the railroad and also to the grounds of the railroad company north of Randolph street, the said viaduct as so altered and extended to be maintained by the said railroad company at its own cost and expense.

5. The said railroad company shall also at its own expense cause a substantial and tight bulkhead or retaining wall to be constructed of timber, earth and loose stone, along the eastern dock line, and also along the southerly line, of the area to be enclosed and filled, as provided in the first section of this ordinance, conformably to the requirements of the Engineer Officer of the United States Army having supervision of the work.

6. The said railroad company shall furnish and de-

liver on the ground, material to the extent of two hundred thousand (200,000) cubic yards, if so much shall be needed for the purpose, to fill in the Lake Front Park lying between said company's right of way and Michigan avenue, to the height of twenty-two feet above Chicago city datum, along the west side of the wall to be erected by said company on the westerly side of said right of way between Randolph street and Lake Park place, and immediately adjacent thereto, and to raise the ground in the rest of said park, or so much thereof as shall be deemed necessary, so that the surface shall have a regular slope westward from the elevation on the westerly side of said wall down to the grade of Michigan avenue. To facilitate the delivery of such material, the said company shall have the right to lay temporary railroad tracks in said park, which shall be removed as soon as the delivery is completed.

7. The said railroad company shall relinquish and surrender to the city the two filled projections into the lake beyond the east line of its right of way at the foot of Peck court and Harrison street, containing altogether about thirty-four one-hundredths ($34/100$) of an acre; and also any land there may be east or outside of that part of its right of way, two hundred feet in width, which lies south of a line drawn across the said right of way seventy feet north of the north line of Adams street produced easterly and parallel thereto, and north of a line drawn across the said right of way seventy-four (74) feet north of the north line of Eldredge court produced easterly and parallel thereto.

8. The work herein required to be done by the said railroad company shall be done in such manner as not

to unnecessarily obstruct the operation of the railroad, and shall be commenced as soon as practicable, and shall be thenceforth prosecuted with all due diligence to completion.

Sec. 6. Permission and authority are hereby granted to the said Illinois Central Railroad Company, in case of its acceptance of the provisions of this ordinance, to construct, maintain and use, in perpetuity, a railway passenger station house on the public ground adjacent to and west of its right of way, at the foot of Van Buren street projected easterly, three hundred (300) feet in length—that is to say, extending from north to south one hundred and fifty (150) feet on each side of the center line of Van Buren street projected easterly—and fifty (50) feet in width. That portion of the said building situated within the north and south lines of Van Buren street projected easterly, shall not be raised so high as to interfere with the construction of a viaduct across the said right of way at that place, and the roofs of the wings shall be so constructed as to admit of their being covered with earth, and when so covered, shall not exceed in elevation twenty-two (22) feet above Chicago city datum. Suitable and convenient entrances to the said station house, and exits therefrom may be constructed within the space herein allowed to be occupied by it, and necessary provision may be made in the roof of the building to secure light and ventilation. Pipes connecting with the water main on Michigan avenue may also be laid to furnish water for use in the station house, and also pipes connecting with the gas mains for heating and lighting the same. Proper

connections may also be made with the works or lines of any company furnishing heat, light or power required for use in lighting, heating or ventilating the said building.

Sec. 7. The said railroad company shall have the right to lay and maintain permanently, necessary conduits and drainage pipes to secure proper and adequate drainage of its right of way between Randolph street and Lake Park place, with the privilege of discharging into the lake or the most convenient city sewers.

Sec. 8. The structures heretofore erected by the Illinois Central Railroad Company south of the north line of Lake Park place projected easterly and in front of its passenger station-house, may be permanently maintained by said company; and in case of the acceptance of this ordinance, the said railroad company shall have the right to use, in perpetuity, its grounds and right of way between the north line of Randolph street and the southern boundary of the Lake Park, and the railroad tracks laid or to be laid thereon for all legitimate railroad purposes, free from all restrictions, except that no building or other structure shall be erected upon that portion of its right of way exceeding in height the top of the wall maintained along the west side thereof, or, when erected at street crossings, the floor of the viaduct or foot-way there constructed, except by consent of the municipal authorities. But nothing in this section contained shall be held to limit or impair the lawful authority vested in the City Council to pass and enforce all proper and reasonable police regulations.

Sec. 9. That the performance of all and singular the conditions and obligations imposed on the said railroad company by the provisions of this ordinance, shall be conditional and dependent upon its being permitted to have, exercise and enjoy all the rights and privileges hereinbefore conferred, and upon its acquiring possession and the unobstructed right to occupy, reclaim and use the grounds hereinbefore authorized to be occupied and used by it, in accordance with the terms and manifest intent of the provisions of this ordinance.

Sec. 10. The said railroad company shall relinquish and surrender to the city any riparian or littoral rights it may have incident or appurtenant to the land owned or occupied by it on the shore of the lake between the north line of Lake Park place projected and the north line of Twelfth street projected, upon the condition, however, that the area covered by water lying east or outside of the parcel of land which the said railroad company is authorized to fill in and reclaim for its own use by the fourth section of this ordinance, and between the south line of Lake Park place projected east and the said railroad company's Thirteenth street pier, shall never be filled in, or access thereto from the waters of the lake obstructed, without the consent of said railroad company, excepting only that the said railroad company shall, if the requisite permission therefor shall be obtained from the Secretary of War, construct, at its own expense, a substantial bulkhead or breakwater about fifty feet wide, from the northeast angle of said Thirteenth street pier, in a northerly direction, on the same line as the eastern edge of that pier, for the distance of two hun-

dred and fifty (250) feet,—the pier so constructed to be maintained by the said railroad company and reserved for its own exclusive use; and also a like substantial bulkhead or breakwater of the same width, from the southeast angle of the ground to be enclosed and filled, as provided in the first section of this ordinance, in a southerly direction, to a point one hundred (100) feet south of the south line of Lake Park place projected, the said last mentioned pier to be maintained by the City of Chicago and held for public use.

Sec. 11. All public work herein required to be done by the said railroad company shall be done under the supervision and to the satisfaction of the Commissioner of Public Works of the City of Chicago.

Sec. 12. Nothing herein contained shall be held to modify or in any way affect the final decree rendered in the suit between the People of the State of Illinois and the Illinois Central Railroad Company and the City of Chicago, hereinbefore referred to, except to the extent and in respect of the particular matters and things hereinbefore provided for.

Sec. 13. Upon the acceptance of this ordinance by the said railroad company (which shall be within thirty days after the passage thereof), a contract embodying the provisions herein contained, and binding the parties to the faithful observance and performance thereof, shall be executed, sealed and delivered by the proper officers of the city and the railroad company, which shall be of perpetual obligation.

Sec. 14. This ordinance shall take effect and be in force from and after its passage.

Passed October 21st, 1895.

however, the right of way, easement and grounds of the Illinois Central Railroad Company, extending north and south through said Grant Park as described in an ordinance of the City Council of the City of Chicago, passed October 21, 1895, and published by authority of said council in 1898, in volume 2 of Special Ordinances of the City of Chicago, at page 657.

And whereas, the City Council of the City of Chicago by an ordinance entitled "An Ordinance granting consent to the South Park Commissioners to take, regulate, control and govern all that part of Grant Park lying west of the Illinois Central Railroad Company's right of way and north of the north line of Jackson street extended east," passed July 20, 1903, gave its consent to the South Park Commissioners to take, regulate, control and govern all that portion of Grant Park, otherwise known as the Lake Front Park, lying west of the Illinois Central Railroad Company's right of way and north of the north line of Jackson street extended in a straight line east from Michigan avenue to said Illinois Central Railroad Company's right of way, subject, however, to certain rights, reservations and conditions therein specified.

And, whereas, the owners of a majority of the frontage of the lots and lands abutting on said Grant Park and also the owners of a majority of the frontage of the lots and lands abutting on that portion of Grant Park described in said ordinance of July 20, 1903, have filed with the South Park Commissioners their respective consents in writing that the South Park Commissioners may take under its control and regulate, control and govern, in the same manner as it may gov-

ern other parks or boulevards under its control, the whole or any part or portion of said Grant Park.

Now, therefore, all the land, including all submerged land, known as Grant Park, in the City of Chicago, County of Cook and State of Illinois, bounded on the north by the south line of Randolph street, extended in a straight line east from Michigan avenue to the harbor line established by the Secretary of War in Lake Michigan, and bounded on the east by said harbor line, and bounded on the south, east of the right of way, easement and grounds of the Illinois Central Railroad Company by the south line of the street known as Lake Park Place (formerly known as Park Row) extended in a straight line east from Michigan avenue to said harbor line, and west of said right of way, easement and grounds by the north line of said Lake Park Place, and bounded on the west by the east line of Michigan avenue, excepting, however, the right of way, easement and grounds of the Illinois Central Railroad Company, extending north and south through said Grant Park, as described in an ordinance of the City Council of the City of Chicago, passed October 21, 1895, and published by authority of said Council in 1898, in volume 2 of Special Ordinances of the City of Chicago, at page 657, is hereby taken under the control of the South Park Commissioners and the power to regulate, control and govern said park, in the same manner as it may govern other parks or boulevards under its control is hereby vested in and assumed by the South Park Commissioners: Provided, however, that the taking under control of the said part of said park described in the

said ordinance of the City Council of the City of Chicago passed July 20, 1903, is nevertheless subject to all the legal rights, reservations and conditions in said ordinance contained.

And, provided further, that the South Park Commissioners does not by the filing of said consents of said property owners waive any of its legal rights in regard to said park.

Sec. 2. That the President of the South Park Commissioners be, and he hereby is, directed to execute in the name of the South Park Commissioners its written acceptance of the ordinance passed by the City Council of the City of Chicago, July 20, 1903, entitled, "An Ordinance granting consent to the South Park Commissioners to take, regulate, control and govern all that part of Grant Park lying west of the Illinois Central Railroad Company's right of way and north of the north line of Jackson street extended east;" that the Secretary be, and he hereby is, directed to attest said acceptance and affix the Corporate Seal of the South Park Commissioners thereto and file said acceptance, together with a duly certified copy of this ordinance, with the City Clerk of the City of Chicago on or before the nineteenth day of January, A. D. 1904.

Sec. 3. That this ordinance shall take effect and be in force from and after its passage.

of February, A. D. 1904, the rights of the said City of Chicago in and to the said building and the control and management of the land known as Grant Park in the City of Chicago, including the site of the said building hereinabove referred to, were transferred to the said South Park Commissioners under and in accordance with the provisions of an act of the General Assembly of the State of Illinois entitled "An Act conveying certain lands to the South Park Commissioners for the purpose of establishing a public park or pleasure ground thereon," approved and in force May 14, 1903; and,

Whereas, The said Art Institute of Chicago since entering upon the use and occupation of the said building as aforesaid, has continued thence hitherto in the said use and occupation of the said building under the said contract, and by and with the permission and consent of the said South Park Commissioners since its acquisition of the control and management of the said Grant Park, as aforesaid; and,

Whereas, The said Art Institute of Chicago and the said South Park Commissioners desire to enter into this new agreement in addition to and in supplement of the said agreement of the said Art Institute of Chicago with the said City of Chicago:

Now, therefore, In Consideration of the premises, It Is Hereby Agreed by and between the Art Institute of Chicago and the South Park Commissioners, a municipal corporation, that the use and occupation by the said Art Institute of Chicago of the said building as now erected and existing shall and may continue, subject to the conditions of the said first men-

Sec. 3. The said corporation, the World's Columbian Exposition, shall have the right to enclose Jackson Park and the Midway Plaisance, or either of them, by a fence or wall, provided, however, that the entrances to Jackson Park and the roadways across the Midway Plaisance shall not be closed prior to the first day of October, 1892. AN ORDINANCE TO ALLOW THE USE OF WASHINGTON PARK FOR THE PURPOSES OF THE WORLD'S COLUMBIAN EXPOSITION. [PASSED SEPTEMBER 23, 1890.]

Whereas, The South Park Commissioners on the nineteenth day of September, A. D. 1890, passed an ordinance entitled "An ordinance to allow the use of Jackson Park and the Midway Plaisance for the purposes of the World's Columbian Exposition," which said ordinance was accepted by the World's Columbian Exposition, corporation, as in said ordinance provided;

And whereas, The National World's Columbian Commission subsequently has passed a resolution that the space needed for the said exposition and to make the same adequate and satisfactory to the Commission requires that Washington Park be added to the several plats of ground tendered to said Commission as a site for the said exposition; and that the addition of Washington Park may be made by the Chicago Directory and will be accepted by the said Commission with the understanding that only so much of said several plats as may be required for exposition purposes will be used;

And whereas, The Board of Directors of the World's Columbian Exposition have passed a resolution that in the opinion of said board the honor of Chicago and the necessities of the exposition alike require the adoption of Washington Park as an important part of the site for the World's Columbian Exposition:

BE IT ORDAINED:

Section 1. Permission and authority are hereby given to the World's Columbian Exposition, corporation, to use so much of Washington Park for the pur-

poses of the World's Columbian Exposition as shall be necessary for such purposes, except the portion thereof occupied by the barn, conservatory and needed places of the Park Administration, such use to be upon the terms and conditions hereinafter set forth.

Sec. 2. Said corporation, the World's Columbian Exposition, at any time after the acceptance of this ordinance and the approval of the first bond to be given by said corporation as hereinafter set forth, shall have the right to enter upon said Washington Park and take possession of such portions thereof as may be necessary in constructing the buildings and making other preparations for such exposition, and may make such use of said premises, except the portions thereof hereby retained by the said South Park Commissioners, as may be necessary for the purposes of said exposition;

Provided, however, That no change shall be made in the present roads and paths in said Washington Park, nor shall the present contours of the ground be altered nor any of the trees or shrubs in said park be interfered with.

Sec. 3. The said corporation, the World's Columbian Exposition, shall have the right to enclose Washington Park, except the portions thereof hereby retained, if such park shall be actually used as the location of buildings or other constructions, forming an integral and substantial part of the exposition; Provided, however, that the entrances to said park shall not be closed prior to the first day of October, 1892. Said corporation, the World's Columbian Exposition, may take all necessary measures to prevent the encroachment of persons and vehicles upon said portions

of Washington Park as may be in actual use in the preparation for such exposition.

Sec. 4. Such parts of Washington Park as shall not be in actual use for the construction of buildings and other preparations for such exposition shall be under the care and supervision of and shall be maintained by the South Park Commissioners until the first day of October, 1892, but the South Park Commissioners shall not be responsible for the care, safety or maintenance of any buildings, work or construction of any kind or property of the World's Columbian Exposition, or any other persons, person or corporation upon said premises. Such parts of Washington Park as shall be in actual use by the World's Columbian Exposition shall be maintained by said corporation.

Sec. 5. On the first day of October, 1892, the South Park Commissioners shall turn over to the said corporation, the World's Columbian Exposition, the entire possession, control and management of such parts of Washington Park as shall have been prepared and enclosed for the purposes of said exposition, and thereafter and until the first day of January, 1894, the said corporation, the World's Columbian Exposition, shall have the full control of the same for the purposes of said exposition and shall make all rules and regulations in regard thereto, and shall at its own cost maintain the same in good condition, and the South Park Commissioners shall be at no expense in regard thereto.

Sec. 6. On the first day of January, 1894, such parts of said Washington Park as shall then be in the possession of the said World's Columbian Exposition, shall be restored to the possession of said South Park

Commissioners, except such portions thereof as shall be actually occupied by the buildings or other constructions of the said World's Columbian Exposition, but the said corporation, the World's Columbian Exposition, shall have the right to remove all such buildings and constructions from said premises, provided that all of such buildings shall be removed prior to the first day of May, 1894, and all such buildings and constructions which shall not be removed at that time shall become the property of the South Park Commissioners.

Sec. 7. The use of the portions of Washington Park hereinbefore mentioned is granted upon the further express condition that in case the World's Columbian Exposition shall determine to use a considerable portion thereof, for the purposes of said exposition in such a manner as shall require the enclosing of a considerable portion thereof, then and in that event the right to use the north eighty-four (84) acres of Jackson Park being the present fully improved portion thereof heretofore granted by the said ordinance passed on the nineteenth day of September, 1890, shall be abrogated. And, if the said World's Columbian Exposition shall enter upon the said improved portion of Jackson Park and take possession thereof for the purposes of said exposition, then the said corporation shall have no right to enclose any portion of Washington Park under the provisions of this ordinance. If the said corporation, the World's Columbian Exposition, shall enter upon Washington Park and take possession of any portion thereof for the purpose of preparing the same for the use of said exposition in such a manner as will require the enclosure of any portion of said park, then

the permission and authority to use the said improved portion of Jackson Park, contained in the ordinance heretofore passed by the South Park Commissioners upon the said nineteenth day of September, 1890, shall be entirely abrogated and all rights thereunder to the use of such improved portion thereof forfeited.

Sec. 8. The use of Washington Park is granted for the purposes of said exposition upon the further express condition that the said park, if used by said World's Columbian Exposition, shall be used during the periods above mentioned only for the purposes of said exposition and subject to the foregoing terms and conditions, and also upon the further express condition that the portions of said park so used shall be surrendered to the South Park Commissioners in as good a condition as they now are. An acceptance of this ordinance by the World's Columbian Exposition shall constitute on its part an agreement to fully comply with all the terms and conditions of this ordinance.

Sec. 9. This ordinance shall be accepted in writing by the said corporation, the World's Columbian Exposition, within twenty days after its passage, otherwise it shall be null and void. The said corporation, the World's Columbian Exposition, shall also file a bond in the penal sum of fifty thousand dollars (\$50,000) to be approved by the South Park Commissioners, said bond to be conditioned for the faithful performance of all the terms and conditions herein prescribed and also to indemnify and save harmless the South Park Commissioners against all damages on account of the use of said grounds for the purposes of said exposition or the passage of this ordinance.

The said World's Columbian Exposition shall also,

before the removal of any of its buildings or constructions placed upon said Washington Park file with said South Park Commissioners an additional bond in the penal sum of fifty thousand dollars (\$50,000) with good and sufficient sureties, conditioned for the faithful performance of all the terms and conditions herein prescribed, and also to indemnify and save harmless the South Park Commissioners against all damages on account of the use of said grounds for the purposes of said exposition or the passage of this ordinance.

ORDINANCE AMENDING AN ORDINANCE ENTITLED "AN ORDINANCE TO ALLOW THE USE OF JACKSON PARK AND THE MIDWAY PLAISANCE FOR THE PURPOSES OF THE WORLD'S COLUMBIAN EXPOSITION." [PASSED APRIL 13, 1892.]

Whereas, The South Park Commissioners on the 19th day of September, A. D. 1890, passed an ordinance entitled "An ordinance to allow the use of Jackson Park and the Midway Plaisance for the purposes of the World's Columbian Exposition," which said ordinance provided among other things that the entrances to Jackson Park should not be closed prior to the first day of October, 1892, and that such parts of Jackson Park as should not be in actual use for the construction of buildings and other preparations for said exposition should be under the care and supervision of and should be maintained by the said South Park Commissioners until the first day of October, 1892.

And whereas, The World's Columbian Exposition has made application to the South Park Commissioners to enclose the whole of Jackson Park, claiming

that such enclosure is necessary, owing to the rapid advancement of the exposition work within the boundaries of said park, and to properly police the grounds.

BE IT ORDAINED BY THE SOUTH PARK COMMISSIONERS:

Section 1. Permission and authority are hereby given to the World's Columbian Exposition to entirely enclose Jackson Park and the entrances thereto; and the entire possession, control and management of said park shall be turned over to the said World's Columbian Exposition upon the acceptance of this ordinance. And the said World's Columbian Exposition shall in regard to said park after said acceptance have the same power and be subject to the same liabilities as are granted to and imposed upon them by section 5 of the said ordinance of which this is an amendment subject to the proviso contained in said section 5 of said ordinance.

Sec. 2. The said ordinance above mentioned allowing the use of Jackson Park and the Midway Plaisance for the purposes of the World's Columbian Exposition shall remain in full force and effect except so far as it is hereby amended by changing the date at which the said Jackson Park shall be entirely turned over to the control of the World's Columbian Exposition, from the first day of October, 1892, the day mentioned in said ordinance, to the time when this ordinance shall be accepted.

Sec. 3. This ordinance shall be void and of no effect unless accepted in writing by the said corporation, the World's Columbian Exposition, within ten days after its passage, and such acceptance shall constitute on the part of the World's Columbian Exposition an agree-

ment to fully comply with all the terms and conditions of this ordinance and of the ordinance of which this ordinance is an amendment except so far as hereby amended.

RESOLUTION CONCERNING THE CLAIMS OF THE COMMISSIONERS AGAINST THE WORLD'S COLUMBIAN EXPOSITION. [PASSED DECEMBER 13, 1893.]

Whereas, The South Park Commissioners have received from the Columbian Exposition through its secretary, H. O. Edmonds, the following:

Extract from the minutes of a meeting of the Board of Directors of the World's Columbian Exposition, held Friday, December 8th, 1893:

"Resolved, That the compromise offer of settlement of the South Park Commissioners, of all damages and claims against this corporation, connected with, or resulting from the occupancy of Jackson Park and Midway Plaisance, by the World's Columbian Exposition, under ordinance of said South Park Commissioners, be, and the same is hereby accepted; and for the purpose of concluding such settlement, the President is hereby authorized to transfer and deliver to said South Park Commissioners, by proper bill of sale, or other writing, all the buildings and other property of this exposition situate in Jackson Park or Midway Plaisance, and par-

ticularly described in a schedule of said property heretofore prepared and delivered said South Park Commissioners by the President of this corporation; also to pay said South Park Commissioners the sum of two hundred thousand dollars (\$200,000), which said sum and delivery of property shall be in full payment, settlement and discharge of all liabilities and obligations of every kind and character resting upon this corporation, by reason of the occupancy of the above described Park and Plaisance, under the ordinance hereinbefore referred to; and the President is authorized and directed to accept such discharge quittance or receipt as may be necessary to effectuate the purpose of said settlement, together with the bond, in the penal sum of one hundred thousand dollars (\$100,000) heretofore executed by this corporation to said South Park Commissioners; possession of all of said property, and every part thereof to be given said South Park Commissioners as soon as the exhibits now installed in said buildings shall be removed therefrom.

Said sale and transfer of buildings subject, however, to the further condition that if the City of Chicago shall elect to purchase of this corporation the Liberal Arts and Manufactures Building, the title of said building may be transferred by this corporation to said City of Chicago, and such sale and transfer shall in no wise affect or impair this settlement; but if said city shall not elect to purchase said building within months, then the title thereto shall pass to said South Park Commissioners.” And,

Whereas, The President of the South Park Commissioners reports that in pursuance of the authority delegated to him at the last meeting of the Park Commis-

sioners, the action of the Columbian Exposition is in accordance with the proposition which he submitted.

Therefore, Resolved, First, That the Park Commissioners assent to the resolution prepared by the Columbian authorities, and

Second, That the President of the South Park Commissioners and their attorney be instructed to prepare the papers and take all steps necessary to complete the transaction.

AN ORDINANCE IN RELATION TO THE SETTLEMENT OF
DIFFERENCES BETWEEN THE SOUTH PARK COMMISSIONERS
AND THE WORLD'S COLUMBIAN EXPOSITION.
[PASSED DECEMBER 29, 1893.]

Whereas, The South Park Commissioners, on the nineteenth day of September, 1890, passed an ordinance entitled "An ordinance to allow the use of Jackson Park and the Midway Plaisance for the purposes of the World's Columbian Exposition," which said ordinance provided for the use of Jackson Park and the Midway Plaisance for the purposes of the World's Columbian Exposition upon the terms and conditions set forth in said ordinance;

And whereas, Among the terms and conditions of said ordinance there was a provision that on the first day of January, 1894, the said Park and Plaisance should be restored to the possession of the South Park Commissioners, except such parts thereof as should be occupied by the buildings or other constructions of the said World's Columbian Exposition, but that the World's Columbian Exposition should have the right to remove all such buildings and constructions from

said premises, provided that all such buildings and constructions which should be upon the north eighty-four acres of Jackson Park should be removed prior to the first day of May, 1894, and all the buildings and constructions upon the other portions of said park and upon said Midway Plaisance should be removed prior to the first day of May, 1895, and that all such buildings and constructions which should not be removed within the times above limited should become the property of the South Park Commissioners;

And whereas, It was further provided in said ordinance that the use of said Jackson Park and said Midway Plaisance was granted upon the further condition that the said Park and Plaisance should be surrendered to the South Park Commissioners in as good a condition as they were at the time of the passage of said ordinance;

And whereas, Said ordinance also provided that the World's Columbian Exposition should file a bond in the penal sum of one hundred thousand dollars, to be approved by the South Park Commissioners, said bond to be conditioned for the faithful performance of all the terms and conditions in said ordinance prescribed, and also to indemnify and save harmless the South Park Commissioners against all damages on account of the use of said grounds for the purposes of said exposition, or the passage of said ordinance, and also that the World's Columbian Exposition should before the removal of any of its buildings or constructions placed upon Jackson Park or the said Midway Plaisance file with said South Park Commissioners an additional bond in the penal sum of one hundred thousand dol-

lars with good and sufficient sureties conditioned in the same manner as the bond above mentioned.

And whereas, The exposition contemplated by said ordinance has been held upon the said Jackson Park and the Midway Plaisance, and the South Park Commissioners claim damages on account of the use thereof for such purpose, and the World's Columbian Exposition, in order to relieve itself from the obligations contained in said ordinance, have made a proposition to pay to the South Park Commissioners the sum of two hundred thousand dollars, and to convey to the South Park Commissioners certain buildings, constructions and personal property now owned by the World's Columbian Exposition, in full settlement and discharge of its obligations of the said ordinance;

BE IT ORDAINED BY THE SOUTH PARK COMMISSIONERS:

Section 1. That upon the payment to the South Park Commissioners of the sum of two hundred thousand dollars, and the conveyance to the South Park Commissioners of the buildings, constructions and personal property mentioned in the schedule hereto annexed, and the delivery to the South Park Commissioners of the possession of Jackson Park and Midway Plaisance and the said buildings, constructions and personal property, subject, however, to the terms and conditions hereinafter set forth, the World's Columbian Exposition shall be released from all its obligations under said original ordinance except as hereinafter mentioned, and its bond of one hundred thousand dollars filed with said Commissioners shall be delivered up and canceled.

Sec. 2. The sale and transfer of the Liberal Arts

and Manufactures Building is upon the condition that if the City of Chicago shall elect to purchase of the World's Columbian Exposition the said building, the sale and transfer to the South Park Commissioners thereof shall become null and void, provided such election shall be made prior to the first day of May, 1894, and if the City of Chicago shall not elect to purchase said building prior to that date, then the title to the same in the South Park Commissioners shall become absolute.

Sec. 3. The sale and transfer of said buildings is upon the further condition that said buildings are to remain in control of and be at the risk of the World's Columbian Exposition until the exhibits or other property not belonging to the World's Columbian Exposition and for which the World's Columbian Exposition is responsible, are entirely removed from such buildings, each building, however, to be turned over to the South Park Commissioners as soon as such property is removed therefrom; but all such buildings must be vacated and turned over to the South Park Commissioners on or before the first day of May, 1895. And while said buildings shall remain in control of the World's Columbian Exposition, it shall indemnify and save harmless the South Park Commissioners from all liability for accidents therein and from all damages of all kinds on account of said buildings or the occupancy thereof.

Sec. 4. This ordinance is passed upon the express condition that all the buildings and constructions upon the north eighty-four acres of Jackson Park and upon the Midway Plaisance not conveyed to the South Park

Commissioners shall be removed prior to the first day of May, 1894, and all such buildings and constructions which shall not be removed before that date shall become the property of the South Park Commissioners.

Sec. 5. The World's Columbian Exposition shall have the right to remove the water and gas pipes, electric wires and electric cables not included in the said schedule hereto annexed, all of such pipes, wires and cables to be removed in a careful and workmanlike manner, and all trenches and holes to be refilled and leveled, and all such water and gas pipes, wires and cables as shall not be removed in the north eighty-four acres of Jackson Park and Midway Plaisance prior to the first day of May, 1894, and in the remaining portion of Jackson Park prior to the first day of May, 1895, shall become the property of the South Park Commissioners.
